Wireless Camera System

M7W-D

Wireless | Weatherproof | Reliable Camera for your Rugged Operations

The IDVRW-Tx is a **weatherproof** camera system designed to allow video monitoring of **material handling operations.**

The DVR is sealed against dust and moisture so it can be used in **outdoor operations**.

Its solid-state hard drive provides **long-term storage,** and it is protected by a locked door for **data security**.

Remote live viewing and automatic wireless backup of recordings to a PC is possible using the included software.

Four cameras with megapixel HD resolution can be connected, with audio and LED lighting options.

System configurations are **tailored to the application**.

One year **warranty.**
