

Wireless Camera System

M7W-D

The M7W-D is a state-of-the-art camera system with built-in digital wireless modules. The sealed, weatherproof 7" LCD monitor includes the latest LED backlighting technology for a brighter image and better durability. There are no mechanical switches to leak, wear out, or get clogged with grime. The monitor is coupled with a color camera that is available with LED lights for use in dark areas. Several configurations are available, including those with rechargeable battery packs and with a variety of camera and monitor mounts. One year warranty.
