

FORKLIFT SAFETY STATISTICS

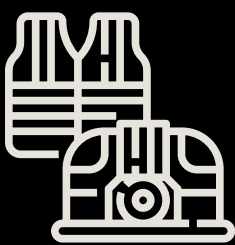

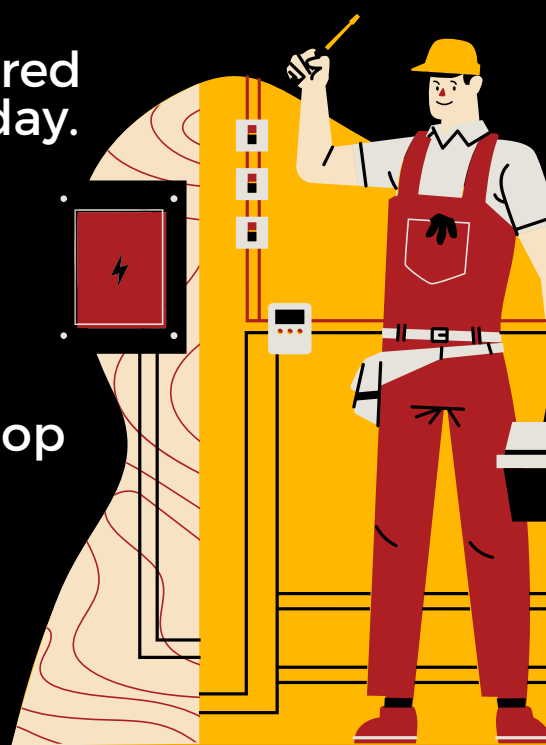

01

95 people are seriously injured in a forklift accident every day.

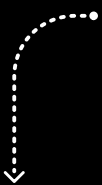

02

Powered industrial truck incidents rank among the top 10 most violated OSHA standards.

35,000 to 62,000 injuries occur every year involving forklifts.

03

70% of forklift accidents in the U.S. are preventable.

04

05

36% of forklift-related deaths are pedestrians.

06

75 to 100 workers are killed annually in forklift accidents.

HOW TO INCREASE SAFETY:

- Proper Training
- Regular Inspections
- Incorporate a "Safety Moment" in meetings
- Increasing forklift safety awareness
